

TOGETHER AGAIN

ESSENTIAL CARE PACK

SUSTAINABLE PRODUCTS
MADE FROM RECYCLED PLASTIC BOTTLES
BY SOUTH AFRICAN ARTISANS

When your guests return, and we are all **Together Again**, we have got you covered with our sustainable essentials care pack, that makes a difference.

A luxury handmade multi-purpose pouch made by The Joinery™ from our recycled plastic bottle Future Felt™ by women's sewing co-operatives in South Africa. Include a Joinery Together mask and locally made sustainable sanitiser.

People + Planet have never been more important.

ESSENTIAL CARE PACK

Multi-purpose Pouch

The Joinery's multi-purpose pouch is made using recycled plastic bottles. It has a zip closure. Your bespoke branding will be on the front of the bag along with the optional words 'Together' or 'Together Again'.

Mask

Our masks are double layer pleated masks with an opening for a filter. Our masks come with an optional 'Together' print. You can choose between two different fabrics:

Poly-cotton Fabric Masks

OR

Hemp blended with recycled plastic bottle (rPET) Fabric Masks with a poly-cotton lining for added protection.

Hemp fabric is hypo-allergenic and has natural antibacterial properties

Our filter is 80% recycled plastic bottles, it is a dual layered non-woven supplying superior filtration and strength. It scored 4, being the highest score on the barrier efficiency test, which is a test conducted to measure the efficiency of textile fabrics and filter materials for use in cloth face masks to be used during COVID-19 pandemic.

Sanitiser

Choose between two luxury sustainable local brands

Charlotte Rhys

Luxury with a Conscience...

No need for soap or water, this non-sticky Waterless Hand Sanitiser is a great hygiene solution for "on the go" protection, leaving your hands clean and refreshed. (contains 71.7% alcohol)

Charlotte Rhys has a stringent green policy that promotes the protection of natural resources and sustainable development and commits to reducing negative impact and stress on the planet. They have developed their own formulae at their factory in Cape Town, using sustainable ingredients, many of which are unique to Africa and are free from harmful chemicals and dyes. All of their products are biodegradable and bottles are made from 70% recycled materials.

Africology

Ethical and cruelty free.

A purifying waterless sanitiser is the perfect solution to protect against a large range of microorganisms. Halal friendly and void of toxic overload, ingredients were selected for their efficacy in the application and in the prevention of the spread of the Corona and SARS, lab tested for its efficacy in line with SABS standards.

Africology is a range comprising organic, fair trade and ethically formulated products. Using the finest natural and organic ingredients with no harsh chemicals. All Africology formulations are void of harmful ingredients and they are committed to work towards creating clean formulations that protect DNA and the environment. All their products are free from micro plastics making them safe to wash into the water system.
